

Clinton Community College

Celebrating 40 years ♦ Honoring our Alumni

"I made a decision to go back to school after already being in the workforce for eight years. As a non-traditional student the 2+2 program at CCC worked great for me. The availability of evening courses and smaller class sizes at CCC helped me ease back into an academic atmosphere and successfully prepare me for the transition to SUNY Plattsburgh and the completion of my Business Marketing Degree".

-Sarah Callan
Marketing Director

Memory Jogger: 1998, the year I graduated and the year the Art, Science and Technology Center was constructed, I had to actually park in a newly constructed lower parking lot and walk up to the Stafford Center. I remember it was pretty muddy for awhile too...I had to wear boots a lot that year...
