SUNY-GER COMPETENCIES

Critical Thinking		Information Management	
ENG 102	Literature & Composition	CSC 102	Introduction to Microcomputer Applications
		LIB 101	Library Research Skills
		SCI 110	Foundational Skills in Science

A SUNY-GER competency may be met by infusion, meaning that this competency is meaningfully addressed throughout a variety of courses in the general education program. Students satisfy a competency by infusion only if they graduate with an A.A. or A.S. degree.

SUNY General Education Requirements for A.A. and A.S. Degree Programs

The Board of Trustees of the State University of New York adopted a General Education Requirement which requires all associate of arts, associate of science, and baccalaureate degree candidates to complete a comprehensive general education curriculum as a condition of graduation.

The SUNY General Education Requirement (SUNY-GER):

- **Thirty credits in a minimum of 7 of 10 SUNY-GER subject areas**
- **Basic Communication and Mathematics areas are *required***
- **Completion of both SUNY-GER competencies**

If a SUNY sending institution certifies that a student has completed the SUNY-GER, then the receiving institution must accept that requirement as being met.

For Transfer to Non-SUNY Institutions

Most colleges stipulate their own general education course requirements. Students who plan to transfer to four-year colleges or universities outside the State University of New York should check with the transfer institution to determine the recommended general education courses.

For additional information about transferring to a non-SUNY college, contact the Academic Advising and Student Support Office (518-562-4199).
